

「グローバルリレーションズ・プログラム（GRP）」参加者の声 (October 2020)

王 璇静さん (China)

I am a PhD student at the Hiroshima University and I came from China. It is a great pleasure for me to share my experience in HIP to you here.

I came here in September 2019, in the past year, I have experienced many activities about Japan about Hiroshima, like Sakematsuri, Tondo festival, the share of A-bomb experience and so on. These are precious memories for me, all of these experiences are very new and interested to me. So, I want to share with you 3 moments that impressed me.

At the Sakematsuri, there were 1, 000 different brands of sake from across the country. We cross the street playing Japanese traditional drums. And people can drink Japanese sake from noon, that was a very pleasant day. I started learning Japanese from 7 years ago, but participating in Japanese traditional activities made me truly feel the charm of the local area.

The sharing of witnesses of the atomic bomb is of great significance to me. In my opinion, it is very important to remember the damage of war. The experience of A-bomb was painful, but I was deeply moved by the strong spirit of the people. Because people have experienced pain, they love peace even more.

In May 2020, I fell while running. The injury of body is not serious, maybe because I am alone, I feel a little bit panic. The staff took me to the hospital and comforted me like family. It makes me feel so warm. Finally, I want to say thank you to my friends here and all the staff. The Coronavirus outbreaks all over the world, 2020 is a hard year, but I believe we can tide over the difficulties together.
